

DIGITAL TRANSFORMATION

Identifying digitization and automation opportunities focusing on
processes and human resources

What you can do

The COVID-19 pandemic instilled companies to prioritize the safety of the people while combating economic implications of the crisis by pivoting, innovating, and renewing current ways of working.

Digitalization is a fundamental component in a foundation of a robust and agile organization.

- 1 **Identify** your Digital Transformation Index – as a key scoring indicator for the digital transformation starting point
- 2 **Evaluate** digitalization and automation opportunities aiming to enhance processes' performance
- 3 Develop and prepare the **roadmap** for digital transformation, implementing solutions for improving the Digital Transformation Index
- 4 **Monitor** digital transformation objectives and roadmap to continuously improve and facilitate the existing ways of working

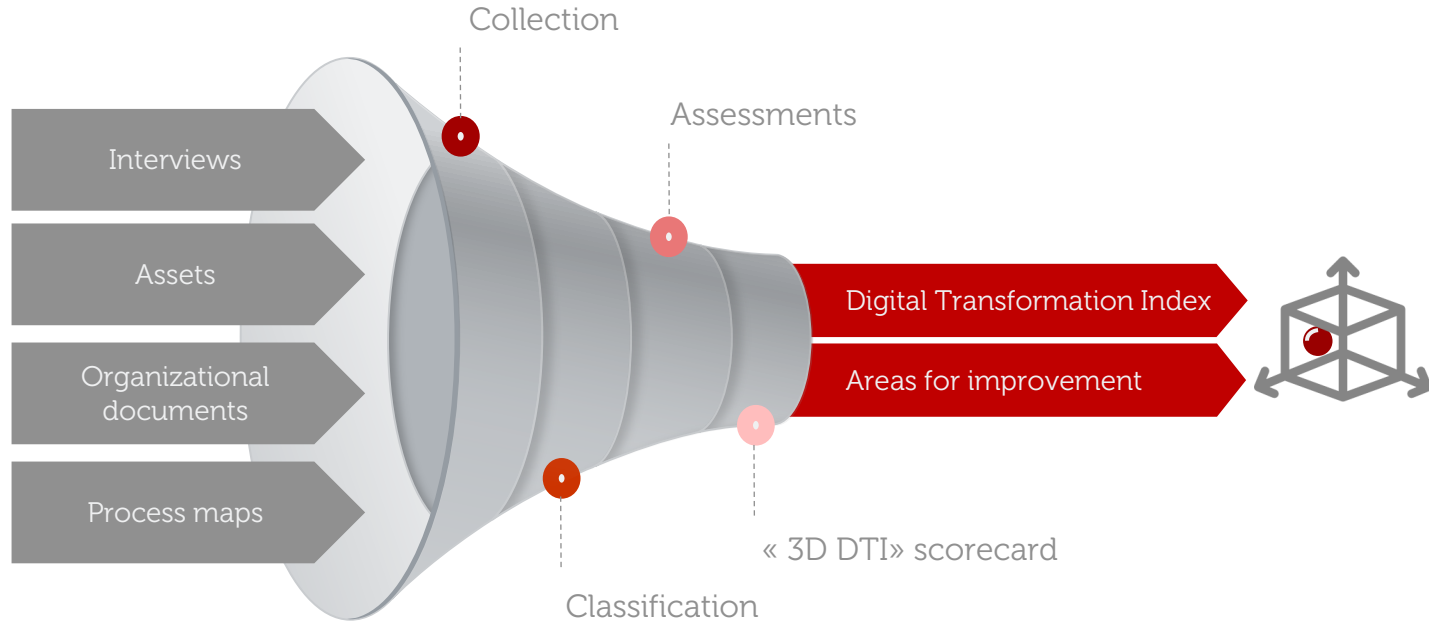

Our «3D» Digital Transformation Index

Valuement can support the companies with a **3D assessment methodology** going from analyzing current ways of working by calculating present digital transformation index to moving forward by identifying opportunities for process enhancement and preparing roadmap for digital transformation.

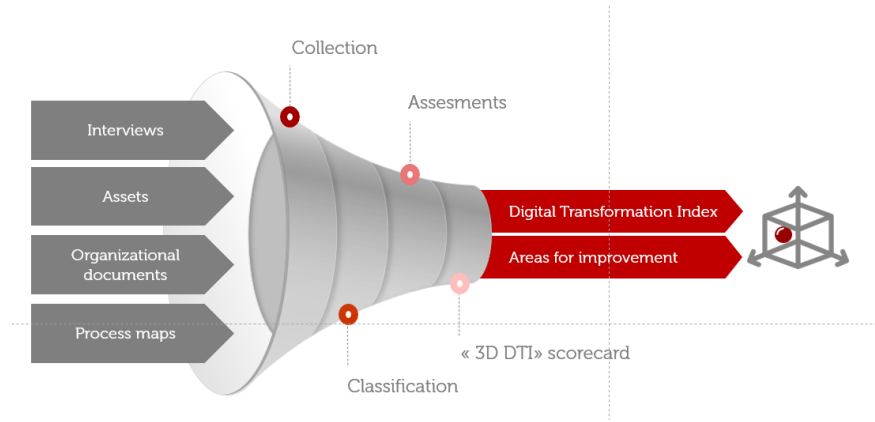

- A structured and tailored methodology
- Concrete measures for quick results
- A clear and 3D view index of your digitization
- Easy identification of possible areas of improvement

Our «3D» Digital Transformation Index

Supply Chain – Sample evaluation

example

Supply Chain focus areas	Digital Index
Forecasting (Demand Planning) & Ordering	53%
Inventory Planning & Optimization	65%
Goods Receipt Management	73%
Inventory Management	75%
Picking & Preparation	69%
Transportation & Hub Network Management	78%
Delivery & Reverse Logistics	85%

Possible causes

- Manual correction of data (bad data, inaccurate records requires manual correction).
- Forecasting (Excel based activities relate to forecasting)
- Ordering (no order, late order, duplicate orders, multichannel order placement)
